PROFESSIONAL SUMMARY

Full-Stack Engineer with 3+ years of experience building robust, high-performance web applications using React.js, Vue.js, and modern JavaScript frameworks. Proven track record delivering production-ready features with strong emphasis on component reusability, code quality, and performance optimization. Experience integrating security best practices and collaborating with cross-functional teams in fast-paced, distributed environments.

PROFESSIONAL EXPERIENCE

Full-Stack Engineer

BigFoot Company

Nov 2023 - Oct 2024

Led front-end development for Telegram advertising platform, building user-facing features and reusable React-based components.

- Developed intuitive web dashboards using React, TypeScript, and modern JavaScript (ES6+) for campaign management.
- Built reusable UI components and front-end libraries optimized for performance across multiple browsers.
- Translated wireframes and designs into high-quality, maintainable code following best practices.
- Collaborated with backend team to integrate RESTful APIs and ensure seamless data flow.
- Maintained code quality through regular code reviews and adherence to coding standards.

Software Developer

DevelBox

Dec 2021 - Sep 2023

Delivered full-stack solutions with emphasis on React/Vue.js frontend development and RESTful API integration.

- Developed production Chrome extension with React.js achieving 90%+ accuracy in real-time feature detection.
- Refactored and modernized university exam platform frontend using modern JavaScript frameworks, enabling 50% faster feature releases.
- Built reusable component libraries and implemented state management solutions (Redux, Pinia).
- Integrated authorization mechanisms including JSON Web Tokens for secure user authentication.
- Optimized application performance across diverse web-capable devices and browsers.
- Performed code reviews and maintained high code quality standards across projects.

EDUCATION

University "1 Decembrie 1918" of Alba Iulia

Bachelor's Degree in Informatics - 9.0/10

Oct 2019 - Jul 2022

PROFESSIONAL SKILLS

React.js & Core Principles: React.js, JavaScript (ES6+), TypeScript, JSX, Component Lifecycle, Hooks, Redux, State Management, DOM Manipulation

Frontend Development: HTML5, CSS3, Responsive Design, Performance Optimization, Cross-browser Compatibility, Webpack, Babel, NPM, RESTful APIs

Security & Best Practices: JSON Web Token, Authorization Mechanisms, Code Reviews, Code Quality, Git, CI/CD

PROJECTS

AdCognition – Production Chrome Extension

Developed production-ready Chrome extension using React.js and modern JavaScript for real-time feature detection with 90%+ accuracy.

- Built reusable React components optimized for performance in browser environment.
- Implemented secure data handling and modern authorization mechanisms.
- Utilized Webpack, Babel, and NPM for efficient build and deployment pipeline.
- Optimized for maximum performance across multiple browsers and devices.

UMF Exam Portal Modernization

Refactored legacy exam platform with modern JavaScript framework, implementing component-based architecture.

- Translated designs and wireframes into high-quality, maintainable code.
- Built reusable component library for future feature development.
- Integrated with existing RESTful APIs and backend services.
- Delivered 50% faster feature release cycle through improved code architecture.
