Daniel Ilies

Web Developer | Vue.js • React • Node.js • WordPress

iliesh.daniel@gmail.com   (+971) 54-753-6361   Dubai   danielilies.bio   GitHub   LinkedIn

Profile

Web Developer with 3+ years delivering responsive, high-performing websites and digital solutions for agencies and startups. Expert in modern JavaScript frameworks (Vue, React, Next.js), WordPress customization, and CMS integration. Proven track record building production-ready web applications, optimizing site performance, and collaborating with cross-functional teams in remote, multicultural environments.

Experience

Full-Stack Web Developer
Nov 2023 - Oct 2024

BigFoot Company • Germany (Remote)

Developed responsive web applications and platforms for marketing automation in a distributed startup team.

- Built responsive web dashboards using Nuxt 3, Vue 3, and TypeScript for campaign management and analytics
- Designed and optimized PostgreSQL database schemas for tracking user interactions and analytics data
- Developed RESTful API endpoints supporting real-time data synchronization and third-party integrations
- Administered Linux servers ensuring optimal deployment, uptime, and CI/CD workflows
- Collaborated with remote teams to deliver features on schedule despite frequent pivots

Web Developer
Dec 2021 - Sep 2023

DevelBox • Romania (Remote)

Delivered full-stack web solutions and platform modernization for B2B and academic clients in an agile agency environment.

- Refactored UMF Exams university platform: migrated frontend to Vue 2 + Vuetify, achieving 50% faster feature delivery and improved accessibility
- Integrated modern Vue.js frontend with existing C# .NET backend APIs
- Built responsive, cross-browser compatible UI components using Vuetify component library
- Developed Python/Flask backend services to support web application prototypes
- Won 1st Place Innovation Award for internal automation tool improving team efficiency and workflow

Web Developer   Jul 2021 - Sep 2021

TraineeLand • Madrid, Spain (Remote)

Developed and maintained responsive WordPress sites for digital marketing agency.

- Built and maintained WordPress sites using Elementor with responsive, mobile-first design
- Customized WordPress themes to match client branding and accessibility requirements
- Performed cross-browser testing and quality assurance across multiple client websites

Web Developer   Jun 2021 - Jul 2021

Equal Web Design • Alba Iulia, Romania

Developed interactive web components and frontend features for client projects.

- Built interactive web applications and UI components using HTML5, CSS3, and JavaScript
- Implemented responsive design principles ensuring cross-device compatibility
- Applied clean code patterns and cross-browser testing standards

Projects

UMF Exam Portal - Frontend Modernization   Dec 2022 - Feb 2023

Migrated legacy university exam platform to modern Vue.js architecture with Vuetify UI library.

- Refactored 30+ pages from vanilla HTML/CSS/JS to Vue 2 with Vuetify component library
- Improved accessibility and maintainability through modern UI framework implementation
- Integrated responsive frontend with existing C# .NET backend APIs

Education

Bachelor's Degree in Informatics 2019 - 2022

University "1 Decembrie 1918" of Alba Iulia

GPA: 9.0/10
